Education

New York University — BFA in Interactive Media Arts

Tisch School of the Arts · Minor in Computer Science · Class of 2028

Concentrations: UI/UX Design & Creative Technology · GPA 3.79 · Dean's List

Experience

Newlab — Brand & Marketing Intern

Oct 2026 – Present · Brooklyn, NY

Support the marketing team in communicating Newlab's founder-facing programs, including a new Detroit initiative and a regional commercialization program that clarifies the path from pilot to commercial scale. Design presentation and visual assets that translate complex initiatives into clear stories, and coordinate email outreach that keeps the startup community informed of upcoming events.

Zrø — Product Design Intern

June 2026 – Aug 2026 · San Jose, CA

Founding designer for an early-stage self-reflection app, now in beta. Designed the end-to-end UX across 20+ product screens and a core UI kit of 12 reusable components. Directed and produced five 3D and motion-design video ads, extending the brand from product into marketing.

Adobe × NYU Mentorship Program — Visual Designer

Sept 2025 – Dec 2025 · Brooklyn, NY

Delivered design systems, moodboards, and UI for 3 clients in one semester as part of a 6-person visual design team. Led typography and pitch deck design, translating each client's strategy into presentation-ready visual stories.

Selected Projects

Aftertone — Music Discovery Platform

June 2026 – Present · San Jose, CA

Designed and built a solo music discovery platform that helps listeners find music across genres, languages, and niche communities beyond streaming algorithms. Engineered the recommendation engine with Python, PostgreSQL, Essentia, and CLAP, and designed the branding and web interface in Figma.

In Your Care — Interactive Installation

Sept 2025 – Dec 2025 · Brooklyn, NY

Built an interactive installation in TouchDesigner that translates climate change into an immersive physical-digital experience. Exhibited at 370 Jay Street.

Yuetu — Personal Worldbuilding Project

Jan 2026 – Present

Developed a cohesive visual world through character design, environmental language, and narrative-driven art direction, establishing a unified identity across concept art and storytelling assets.
